

Klever Arm™

Product Specification

Add flexibility and comfort to your workstations with an adjustable, desk-mounted monitor arm. A monitor arm provides additional functionality in achieving posture-perfect positioning for the comfort and wellbeing of desk workers. The Klever adjustable arm lets users position their screen at the ideal height and distance. This versatility is beneficial for shared workstations, hot desking and flexible work environments, allowing any desk to be ergonomically customised to the needs of the user.

Klever Arm™

Specification

Features

- Easy-move gas spring technology to counter-balance the weight of your monitor.
- Allows for smooth, effortless tilt, swivel and height adjustment for different viewing positions.
- Will work with screens from 10" - 32".
- 360° rotatable VESA plate design which allows portrait and landscape viewing.
- 360° rotation at the mounting base and extension. Screen swivel angle +90° and tilt angles +90°/-45°.
- Weight rating of 2 - 9kg per arm.
- Black or White powdercoat finish.
- Clamp or grommet mounting solution included, to allow for easy desk installation.
