KLEVER

Klever Corporate

Designed to drive your business success.

Exceptional European design, made for NZ workplaces - Klever is a smart, intuitive desk system for healthier and more productive workplace. Perfect for a broad range of desk users who need solutions to the post-COVID regulations.

KLEVER

Striking the Balance.

We've blended human-centered design with smart technology to create an adjustable standing desk that is better suited to the needs of today's businesses. At the heart of our adjustable desk design is a revolutionary connectivity hub that ensures your furniture can flex with the needs of a more agile way of working. With our Klever technology, you can track real-time desk occupancy, ensure necessary social distancing, and easily manage shared spaces or flexible working environments.

Designed in Germany

Powerful Anti-Collision Protection System
